22 April 1966

**MEMORANDUM FOR: Director of Planning, Programming,
and Budgeting**

In the course of a conversation with the Director on Wednesday, 20 April, concerning China, the Director again expressed some reservation that the Agency is not attacking this problem vigorously enough. He particularly questioned whether our plans to beef up our China expertise during the next several years are adequate. He referred specifically to the "Ten-year Plan" and asked that I advise him what it includes in this regard.

Please prepare a brief memorandum to the Director for my signature answering this question.
